Fast-Action Thermometers with Wide Measurement Range

Wide choice of probes for many applications

NEW!

testo 922

A differential thermometer with 2-line display for easy temperature comparisons. An optional wireless temperature probe makes remote temperature monitoring easy. Differential temperatures are easily displayed, while an audible alarm sounds if user-adjustable limit values are exceeded.

Current measurements and Max-Min values can be printed on-site with the optional Testo printer. Timed-interval printing (eg. once per minute) is possible and controlled from the testo 922.

testo 922 2 channel Type K thermometer with audible alarm, battery and calibration protocol

Advantages testo 922

- 2 channel measuring instrument with optional wireless probe
- Displays differential temperature
- Cyclical printing of readings, e.g. once a minute

Joint Advantages testo 922, 925

- On site printout on Testo printer
- Continuous display of max/min values
- Hold button to freeze reading
- TopSafe case to protect instruments from dirt and impact (optional)
- Backlit display
