

WP 120 - High-Power Soldering Pencil

BestellNr.:0052919499

WP 120 Soldering Set 120 W, 24 V with High Power Soldering Iron WP 120, Comfort safety rest with Stop+Go function

The Weller® WP 120 High-Power soldering pencil offers twice as much power and efficiency in a small and ergonomic pencil design. Combining a compact, powerful heating element with a replaceable soldering tip the WP 120 soldering pencil guarantees dynamic performance and best life cycle costs. The rapid transfer of heat into the soldering tip is quickly and precisely controlled with sophisticated electronics which allows the WP 120's compact design to cope with big and difficult solder joints even when they are barely accessible. The WP 120 High-Power soldering pencil features Weller®'s new Advanced Sensor Technology (sensor is located at the very end of the soldering tip) which means the heating performance is comparable with an active soldering tip.

Top Attributes

Usable Tip family XT

- 120 W HighPower Soldering Iron
- Equipped with Weller® Advanced Sensor Technology
- Very short heatup time
- Twice as much power and efficiency as standard soldering pencil
- Best life cycle cost for soldering tips
- Ideal for big and difficult solder joints as well as for HF shield plates and solar panel manufacturing

Technical Data

| | |
|------------------------|---------------------|
| Cord plug | Weller station plug |
| Cord material | Silicone |
| Color | Black |
| Material delivered tip | Iron plated |
| Usable Tip family | XT |
| Tip grounding | Grounding variable |

| | |
|--------------------|------------|
| Target application | Electronic |
| Degree of Freedom | With cord |
| Size | Medium |
| On/off indicator | No |
| Build in Light | No |
| Volt min | 24.0 V |
| Volt max | 24.0 V |

Packaging information
