

 **MAGLITE®**

The Mag Philosophy

Mag Instrument is dedicated to the highest standards of integrity. We seek performance and a reputation reflecting the very best we can achieve.

Each Mag Instrument flashlight represents a culmination of more than 20 years of research, development and continuous state-of-the-art refinement in every precision feature.

We are proud to offer products designed and manufactured in the United States of America.

We believe the spirit and character of the company is most clearly defined and expressed by our founder, owner and president Anthony Maglica. Each flashlight is a result of his obsession with fine engineering, craftsmanship and his commitment to perfection.

An experimental machinist by training and a manufacturing innovator by practice, Mr. Maglica has guided his company's growth from a one-man machine shop in 1955 to an enterprise that employs over 800 dedicated employees today. But his work does not stop there. Mr. Maglica continues his commitment to quality by continually improving upon the product that bears his name.

Mag Instrument, Late 50's

Mag Instrument is proud to be a leader in the current renaissance in American manufacturing. Maglica himself, a fervent believer in the importance of manufacturing in the United States, insists that all Mag Instrument products be made domestically and bear the "Made in the U.S.A." label. He has dedicated himself to proving that American-made products can excel in the global marketplace by using technology to continually improve quality and reduce costs. Over the last two decades, Maglica's innovations have enabled Mag Instrument to offer consumers a consistently better value than the competition.

- Durable extra hard anodized finish
- Limited Lifetime Warranty
- Individually serial numbered
- Made in USA

**Mag Instrument, Inc. is a proud participant in the RBRC (Rechargeable Battery Recycling Corporation). By recycling Ni-Cd rechargeable batteries, you are helping to keep Ni-Cd batteries out of the solid waste stream. When you throw away a Ni-Cd battery, it eventually ends up in a landfill or municipal incinerator. By recycling your used Ni-Cd batteries through Mag Instrument's Battery Recycling Program, you are helping to create a cleaner and safer environment for generations to come. For more information about the RBRC visit http://www.rbrc.com

The Mag-Lite® C-Cell flashlight embodies the same precise balance of refined optics, efficient power, durability and quality as the D-Cell Flashlights in a smaller, lighter weight design. Each Mag-Lite® C-Cell flashlight includes two high intensity White Star® Krypton Gas Lamps for enhanced brilliance and extended range.

FEATURES:

- High-intensity light beam
- 1/2 turn, cam action focus, spot-to-flood
- Self-cleaning rotary switch, 3 position, On, Off, and Signal (Manual, Momentary On-Off)
- Spare lamp safely secured in the tailcap (see fig. A on page 8)
- High-strength aluminum alloy cases
- O-ring sealed for water resistance
- Limited Lifetime Warranty
- Individually serial numbered
- Made in USA

Available in hang packs or chipboard display cartons.

COLOR GUIDE:

Black - 2, 3, 4, 5, & 6 C-Cell

2-Cell AA Mini Maglite® Flashlight

Until its inception, no flashlight of this size incorporated the features, functions, and unique design elements of our Mini Maglite® AA flashlight. Made in the U.S.A. and famous around the world for its brightness, quality, durability, and dependability.

FEATURES:

- High-intensity light beam
- 1/2 turn, twist focus, spot-to-flood
- Patented Candle Mode (see fig. B)
- Spare lamp safely secured in the tailcap (see fig. A)
- High-strength aluminum alloy case
- O-ring sealed for water resistance
- Vented tailcap (patented) reduces chance of gas buildup
- Compact/lightweight construction
- Limited Lifetime Warranty
- Made in USA
