

Cable Tie Installation Tools

ST3EH

This is ST3EH and it supersedes ST2EH (101-5661 page 141, module 419707/436617). New combined image as below:-

HTMT Panduit Metal Tie Tensioning Tool

- Economical
- Coiled tie end remaining after tensioning assures a safe end
- No sharp edges
- Manual tension, no cut-off
- Installs ties parallel to the bundle

Used with standard, light-heavy and heavy cross section Pan-Steel® type MLT ties, type MLTC/MLTFC coated ties, and type MLTDH double wrapped ties.

Min. Order UOM: One Piece

Automatic Tensioning and Cut-Off Tools

Product Bulletin Number WW-CTCB17 7/2006

PANDUIT leads the industry in providing the most preferred cable tie installation tools for their complete line of PANDUIT cable ties. Choosing the right installation tool increases productivity and promotes worker safety. The GTS, GTSL and GTH tools are part of the PANDUIT ergonomic series of hand-operated, tool-controlled tension, and cut-off cable tie installation tools.

- GTS Tool installs subminiature (8 lbs.) through standard (50 lbs.) cross section cable ties
- GTSL As above, but with shorter handle reach and stroke for users with smaller hands
- GTH Tool installs standard (50 lbs.) through heavy (175 lbs.) cross section cable ties

The ergonomic series of tools is excellent for low to medium volume applications (under 50,000 ties/year)

Key Features and Benefits

- **Lightweight, ergonomic design** speeds installation and reduces operator fatigue and repetitive motion injuries
- **Flush tie cut-off** eliminates sharp edges and improves safety by preventing damage to adjacent wire bundles and injury to workers' hands and arms
